

BGOUG Autumn' 2008 Conference

24th – 26th October 2008

CALL FOR PAPERS

The Autumn Conference of the [Bulgarian Oracle User Group](http://www.bgoug.org) will take place in [hotel Perun](#) in [Bansko](#), one of the Bulgarian winter resorts.

The primary goal of the conference is to bring together the Oracle Developers, Database Administrators and Users in order to exchange ideas and experience. During the year this proved to be a successful and fruitful approach. As a result the number of attendants to BGOUG conferences increased significantly over the time. The conference usually takes place in some tourist resort outside Sofia in order to allow more productive and relaxing environment. Now we are expecting at least 200 people to come to the conference.

For the conference we define the following areas of interest:

1. Oracle database administration and database tuning
2. Application development and application tuning
3. Business Intelligence
4. Oracle Applications
5. Oracle technology general concepts
6. Deploying and using Oracle-based products
7. Business and Strategy

If you have a presentation relating to any of these topics we would love to here from you. Please submit your proposal (the subject, approximate duration and a short abstract) not later than September 1st, 2008 to info@bgoug.org.

For further questions, please contact the agenda team at info@bgoug.org.
