About ICISSE

The First International Conference on Information Systems and Software Engineering - ICISSE 2009 is scheduled to be held from 28th December 2009 to 30th December 2009 at Meenakshi Sundararajan Engineering College, Chennai, India. The forum will be an excellent opportunity for researchers and scientists to present their ideas and discuss the entire spectrum of topics in the areas of Information systems and Software Engineering. The three day program will consist of tutorial sessions and paper presentations.

About MSEC

Meenakshi Sundararajan Engineering College, Chennai is a premier institution, affiliated to Anna University, offering undergraduate courses in Engineering. Ever since its inception in July 2001, the institution has attracted the students of high calibre and has also produced elite engineers. The institution, in a recent ranking, was positioned number 1 among 243 engineering colleges (source: www.annauniv.edu). The college aims at developing high quality students with a sound footing on basic engineering principles, technical skills, innovative research capabilities and exemplary professional conduct.

About Chennai

Chennai, till recently called Madras, is the capital of Tamil Nadu in south India. It is the fourth largest metropolis of India, after New Delhi, Bombay and Calcutta. Chennai is a seaside and a major port city. The state of Tamil Nadu is known for its many monuments and temples reflecting the contributions of the Chola and Pallava Dynasties to the ancient Dravidian civilization. The weather is pleasant in December with temperature hovering in the range of 22-26 degree Celsius and humidity in the order 40-60%.

Themes of the conference

DATA WAREHOUSING AND DATA MINING

- Models and Algorithms in Data Mining
- Video and Multimedia Data Mining
- Parallel and Distributed Data Mining Algorithms
- Innovative Data Mining Applications
- Security and Information Hiding
- Pre processing and Visualization
- Robust Scalable Statistical Methods
- Machine Learning and Pattern Recognition
- Business Intelligence
- Integration of Data Warehousing, OLAP and Data Mining
- Digital Libraries

INTERNET TECHNOLOGY

- Metadata and Meta Modeling
- XML and Data Management
- Knowledge Management
- Web Security and Privacy
- Cyber Threats
- Web Services and Web Engineering
- Web Intelligence
- Wireless Applications
- Protocols and Standards
- Network Systems, Proxies and Servers
- Multimedia Applications using Webservices
- Ontology and the Semantic Web

EBUSINESS

- B2B, B2C and C2C
- e-Business System Design and Development
- e-Payment
- Portal Strategies
- Social Networks and Information Systems
- Social and Legal Issues
- Digital Ecology
- e-Governance
- e-Learning and Virtual Classrooms
- e-Entertainment
- e-Journalism

SOFTWARE ENGINEERING

- Aspect and Objected-orientation Techniques
- Component-based Development
- Model driven Software Engineering
- Embedded and Real-time Software
- Requirements Engineering
- Reverse Engineering and Software Maintenance
- Semantics and Design of Programming Languages
- Service Oriented Computing
- Software Architectures and Design
- Tools and Environments
- Distributed Software Development

SOFTWARE QUALITY AND METRICS

- Software Performance Engineering
- Quality Management Systems (QMS) and Tools
- Process Improvement
- Risk Management
- Quality Planning
- Total Quality Management (TQM)
- Human Factors in Quality Management
- Standards and Audit systems
- Software Testing and Tools
- Empirical Software Engineering and Software Metrics

Call for papers

Authors are invited to submit their full-length paper by email to papers@icisse.org. The deadline for the submission of full paper is 15 June, 2009. The papers must be submitted in electronic format (MS Word or PDF). The papers must follow the IEEE format standards and should not exceed 6 pages.
