SHARP ESTIMATES FOR THE FIFTH COEFFICIENT
OF THE INVERSE FUNCTIONS
OF THE TOTALLY MONOTONIC FUNCTIONS

PAVEL G. TODOROV

We find the minimum and the maximum of the fifth coefficient for the inverse functions of the totally monotonic functions.

Keywords: minimum and maximum, inverse functions, totally monotonic functions

2000 MSC: primary 30C45, 30C50; secondary 12D10, 26C10, 26C15, 30B10, 30C10, 30C15
