

☑ MSc Program: High Performance Computing
(Education in English)

CURRICULUM 2023/2024

| <i>Courses</i> | <i>ECTS-credits</i> | <i>Number of classes</i> | |
|--|---------------------|--------------------------|-----------------|
| | | <i>total</i> | <i>per week</i> |
| <i>I semester</i> | | | |
| HPC Architectures (E, GBT) | 6 | 60 | 2+2+0 |
| Basic Mathematical Methods and Algorithms (E, GBT) | 6 | 60 | 2+2+0 |
| Statistics (E, GBT) | 6 | 60 | 2+2+0 |
| Foundations of computing (E, GBT) | 6 | 75 | 2+2+1 |
| Fundamentals of Artificial Intelligence and Data Science (E, GBT) | 6 | 75 | 3+2+0 |
| Operating Systems and Computer networks (E, GBT) | 6 | 60 | 2+2+0 |
| Computer and Network Security (E, GBT) | 6 | 60 | 2+2+0 |
| Parallel Programming (E, GBT) | 6 | 75 | 2+2+1 |
| <i>II semester</i> | | | |
| Advanced Computer architectures for HPC (E, GICSSC) | 6 | 75 | 3+0+2 |
| Virtualization and Cloud Computing (E, GICSSC) | 5 | 60 | 2+0+2 |
| Programming practicum (E, GICSSC) | 5 | 45 | 0+1+2 |
| Parallel and Distributed Processing (E, GICSSC) | 6 | 75 | 3+2+0 |
| Advanced mathematical methods and Algorithms (E, GNSSC) | 5 | 60 | 2+2+0 |
| Performance analysis and models (E, GNSSC) | 5 | 60 | 2+2+0 |
| Creating Technology-based ventures (E, GTC) | 5 | 60 | 1+1+2 |
| RRI, Open Data, IPR, Data protection and privacy (GDPR) (E, GTC) | 5 | 60 | 2+1+0 |
| <i>III semester</i> | | | |
| Computer Vision (E, GICSSC) | 5 | 60 | 2+0+2 |
| Parallel Programming with MPI (E, GICSSC) | 5 | 60 | 2+0+2 |
| Applied Machine Learning (E, GICSSC) | 7 | 75 | 3+0+2 |
| Quantum algorithms and programming (E, GICSSC) | 6 | 90 | 3+1+2 |
| Knowledge Representation and Semantic Web Technologies (E, GICSSC) | 5 | 60 | 2+2+0 |
| Quantum Computing (E, GNSSC) | 7.5 | 60 | 3+1+0 |
| Introduction to quantum technologies (E, GNSSC) | 5 | 60 | 3+1+0 |
| Quantum simulations and quantum metrology (E, GNSSC) | 5 | 60 | 3+1+0 |
| High Performance Computing for Weather and Climate (E, GNSSC) | 5 | 60 | 2+2+0 |
| Computational Biology (E, GNSSC) | 5 | 75 | 3+0+2 |
| Computational Physics (E, GNSSC) | 5 | 60 | 2+0+2 |
| Computational methods in Chemistry (E, GNSSC) | 5 | 60 | 2+0+2 |
| Scientific writing (E, GTC) | 5 | 30 | 2+0+0 |
| <i>IV semester</i> | | | |
| Internship (C) | 15 | | |
| Master Thesis (C) | 15 | | |

C – compulsory course

E – elective course

Elective courses

Selected courses must have minimum 90 Credits, as follows: 1-st semester - 30 credits; 2-nd semester – 30 credits; 3-rd semester - 30 credits, as follows:

* Profile 1 - Scientists from various domains aiming to acquire numerical and data analysis for science domains specialization

** Profile 2 - Computer science specialists aiming to acquire software system development, support and performance analysis specialization

Elective courses Group Basic Training (**E, GBT**)

For Profile 1* and Profile 2** selected courses must have minimum 30 Credits

Elective courses Group Informatics and Computer Sciences Specialization courses (**E, GICSSC**)

* For Profile 1 selected courses must have minimum 10 Credits

** For Profile 2 selected courses must have minimum 20 Credits

Elective courses Group Natural Sciences Specialization courses (**E, GNSSC**)

* For Profile 1 selected courses must have minimum 20 Credits

** For Profile 2 selected courses must have minimum 10 Credits

Elective courses Group Transversal courses (**E, GTC**)

For Profile 1* and Profile 2** selected courses must have minimum 10 Credits
